PROFESSIONAL SUMMARY

Senior Lead Software Engineer and Frontend Architect with **15+ years of experience** building **enterprise-scale web applications**. Deep expertise in **Angular (16/17), React, TypeScript, JavaScript, HTML5, CSS/SCSS**, and modern UI architecture. Proven track record of leading frontend design, delivering **high-performance, scalable, and compliant applications** in banking, SaaS, IoT, and digital platforms.

Strong experience working with **CI/CD pipelines, DevOps tooling, and cross-functional teams** in large enterprise environments.

Specialized in integrating **Large Language Models (LLMs)** including **Qwen3, Llama 3, Claude, GPT, and Mistral**, using **Ollama, LangChain, LlamaIndex**, and **custom retrieval (RAG) pipelines** to build intelligent, production-grade applications.

CORE SKILLS

Frontend Engineering

- Angular 16/17, React, TypeScript, JavaScript
- HTML5, CSS3, SCSS, Responsive Design
- Angular Material, Component Architecture
- State Management, Performance Optimization

Backend & Integration

- REST APIs, API Integration
- Basic exposure to GraphQL
- JSON, Async Data Handling

DevOps & Engineering Practices

- CI/CD Pipelines

- Git, GitHub / Bitbucket
- Docker (build & deploy awareness)
- SonarQube, Code Quality Practices

UI/UX & Architecture

- Frontend Architecture Design
- Reusable Component Libraries
- UX Optimization & Accessibility
- Enterprise UI Standards

PROFESSIONAL EXPERIENCE

Virtusa Consulting Services

Senior Lead Software Engineer

May 2023 – Dec 2025

Project: Citi – Resource Management Platform (Banking Domain)

Technology: Angular 17, TypeScript, SCSS, Angular Material, REST APIs

- Led **frontend architecture** for Citi's enterprise **Resource & Financial Management platform**.
- Designed and developed complex UI modules for **headcount planning, budget forecasting, approvals, and governance workflows**.
- Built scalable Angular components supporting **10+ business modules** including Position Management, Headcount Dashboards, Payments, Accruals, and Software Renewals.
- Implemented **multi-stage approval workflows** with audit trails, role-based access, and compliance controls.
- Optimized UI performance and responsiveness for enterprise-scale users.
- Collaborated closely with backend, DevOps, and business stakeholders in an agile environment.
- Worked with **Lightspeed CI/CD pipelines**, Docker-based builds, and multi-environment deployments (Dev, UAT, Prod).

Buckman

Senior Digital Innovation Engineer

May 2021 – Mar 2023

Technology: Angular, React, TypeScript, JavaScript, HTML5, CSS3

- Built **modern, scalable UI features** using Angular and React for digital innovation platforms.
 - Delivered responsive and performance-optimized user interfaces across multiple applications.
 - Improved UX consistency by designing reusable UI components.
 - Worked in fast-paced innovation teams, balancing speed with maintainable architecture.
-

PushPro

Senior Frontend Developer

Jun 2020 – Mar 2021

Technology: JavaScript, HTML5, CSS3, Modern UI Frameworks

- Developed **high-performance notification dashboards** and reusable UI components.
 - Focused on **UI performance optimization**, responsiveness, and usability.
 - Delivered real-time, data-driven dashboards for digital notification systems.
-

Auriss Technologies

Senior Frontend Developer

Oct 2017 – Feb 2020

Project: Akita Security & Compliance SaaS Platform

Technology: JavaScript, HTML5, CSS3, UI/UX

- Built enterprise-grade UI for a **security and compliance SaaS platform**.
 - Designed robust, user-friendly, and responsive interfaces for enterprise customers.
 - Contributed to scalable SaaS frontend architecture and component reuse.
-

Pacific Controls

UI / Web Developer

Feb 2015 – Oct 2016

Project: IoT Smart Building Dashboards

Technology: JavaScript, HTML5, CSS3, Responsive Design

- Delivered **IoT-enabled dashboards** for smart building management systems.
 - Built interactive UIs for real-time data visualization and monitoring.
 - Focused on performance and responsive design for complex data-driven interfaces.
-

EDUCATION

B.Sc. Computer Science

Bharathiar University — 1993

KEY HIGHLIGHTS

- 15+ years in frontend engineering and UI architecture
- Strong Angular & React expertise for enterprise applications
- Experience in **banking, SaaS, IoT, and compliance domains**
- Proven ability to lead frontend design and deliver at scale
- CI/CD-aware engineer working closely with DevOps teams
